## Declan Decks "War on Women"

*"If there are any women who have trouble accessing care, please call my office. It is stunning to me how some Democrats can convince themselves into believing there is zero funding for women's healthcare in New Jersey's budget. Nothing could be further from the truth."*

*I count at least seven line items where we put money to women's healthcare, including \$135 million for family health services to provide prenatal and perinatal care for expectant mothers and their children...*

*"While certainly there is somebody out of touch in this state, it isn't me. One need look no further than Assemblywoman Pintor Marin's own words to make my point. This morning, when asked directly if she came across even one constituent who couldn't access the healthcare they needed, she answered, 'No.' I rest my case."*

NJ Assemblyman Declan O'Scanlon responding to charges from colleague Assemblywoman Eliana Pintor Marin that rejecting funding for Planned Parenthood in New Jersey is evidence of the "war on women". Note: This report does not endorse any elected official. It is merely reporting on statements made during a recent NJ Budget Committee hearing.
