NJ Legislature Commemorates Roe v Wade

For many years, the mantra of those supporting abortion was to keep the procedure “safe, legal and rare”.

Perhaps a better description of their position now is: “safe, legal and *celebrated*” or “safe, legal and *as many as possible*”.

Aborting over a million babies a year in the US is certainly not “rare”.

And “safe”? Research and clinical evidence clearly point to a multitude of health risks from abortion, not to mention the emotional harm.

And, well yes, abortion is still legal, despite what science has taught us over the past 40 years about unborn life via DNA and ultrasound technology.

None of these facts stopped the NJ State Legislature from passing a resolution on March 14 *commemorating* the anniversary of Roe v Wade.

In honor of the 58 million unborn babies whose lives were ended by abortion, contact your legislators and let them know that abortion is a tragic decision that comes with much trauma, and is NOT something to “commemorate”.

 **Helpers of God's Precious Infants N.J.** Helpers of God's Precious Infants is a pro life nonprofit 501(C)(3) organization devoted to building a culture of life and family in New Jersey. They enter into the lives of pregnant women who believe their only option is abortion. Through the work of local unpaid volunteers, they provide invaluable support services, mentoring, and assistance programs designed to evangelize, educate and equip these expecting moms for a new future full of life, hope, faith and family.

LIFEstories is a monthly newsletter distributed to hundreds of individuals, families and churches showcasing real stories of real women who turned away from abortion and embraced a new life of hope for their babies and themselves. These stories display the amazing impact that God's love and the Helpers' work make in the lives of children and their mothers. You will get to see real, beautiful miracles each month as they showcase the children who have been saved by God's grace and your prayers.
